WORK EXPERIENCE

Software Engineer Intern   Spring 2021

Rithm School | Remote

- Refactored a codebase built on Django, in order to offer more user-friendly tools to both students and staff members.
- Improved staff administrative portal to automate student enrollment and organize coursework scheduling between semesters.
- Debugged the company wide codebase to patch up potential academic integrity loopholes exploitable by students.
- Designed and integrated new tables into the application database to track and manage student internships.
- Wrote unit and integration tests to maintain high testing coverage between 90-95%.

Photography & Graphic Design   2017 – present

Los Angeles, CA

- Booked, scheduled, and shot studio and event photography ranging from independent artists to larger team-based brand projects.
- Developed digital and print assets for promotional, social media posts, and static user interface icons using the Adobe Creative Suite.
- Consulted with brand stakeholders to plan and execute a smooth design process.

Inventory Manager   2016 – 2019

Stag Provisions For Men | Los Angeles, CA

- Overhauled the store's inventory organizational system to improve efficiency and loss prevention between the stockroom and shipping team, dropping shipping errors by 15%.
- Maintained the ordering of a constantly changing inventory database of product SKUs while providing daily updates to team members.
